

Clark Forklift Parts

Clark Forklift Parts - Performing globally, there are at this time 350,000 Clark forklifts and lift vehicles in operation, with more than 250,000 of those in commission in North America. Clark has five main lines of forklifts across the globe, making it one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 unique models of lift trucks, with components covering more than 120,000 specific components for all of its automated equipment. Your regional Clark Supplier is your complete source for availability of all your parts requirements offered by Clark Totalift.

Clark's phenomenal Parts Distribution Centers are conveniently stationed in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Driven to offer the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to improving output and benefiting performance.

Worldwide, Clark has one of the most impressive supplier support networks. With over 550 locations globally, dealer representation in over 80 nations and 230 locations in North America, their high level of commitment to their customers predominates the material handling market.

Clark proudly remains an innovative leader of the industrial equipment industry, pioneering safety features such as the worker restraint system. This exceptional commitment to safety is at this time a standard feature on every lift truck.

Clark's recurrent mission to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck producer across the globe to be certified with the internationally approved quality standard ISO 9001 for each and every one of their manufacturing plants. Additionally, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any number of environmental restrictions, thus placing them in a prevailing industry position.

Clark has selected the particularly economical and beneficial structure of "Lean Production" for its assembly plants and use of resources. This system was established to acknowledge the most efficient method of manufacturing plant management and ensuring maximum proficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards improving product efficiency while minimizing costs. The contemporary value engineering agenda combines progressive product growth and offers superior customer support and service within the industry.
