

TCM Forklift Part

TCM Forklift Parts - In the global trade of material handling, lift trucks play a major role for transporting industrial goods. Initially innovated as industrial vehicles in the 1930s in the United States of America, forklifts gained recognition following World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machines spread globally.

Initially started as Toyo Carrier Manufacturing Company Limited, in the year 1949, the company was later renamed Toyo Umpanki Co. before becoming known as the TCM Corporation. Founded by Mr. N. Niwa manufactured Japan's very first forklift. Over the years, TCM lift trucks have become a global leader in forklift manufacturing and have built a solid reputation in the business. TCM started constructing forklift manufacturing locations outside of Japan in the 1980s and is presently engaged in forklift manufacturer at three foreign factories in the United States, Europe and China.

With over 50 years of accumulated expertise and technology, TCM has been proudly making several models of industrial trucks, making their models recognizable all around the world. With an energetic and strong employees, TCM has been able to constantly work towards becoming a future leading material handling company.
