

Rockwell Parts

Rockwell Parts - AxleTech International is a leading dealer in the world of specialty vehicle drive-train systems and parts together with off highway vehicles. The business prides itself on being its clients' chosen supplier. AxleTech strives to meet and exceed their clients' expectations for delivery, quality, service and technology. They believe in working within an environment which supports the utmost integrity with empowered collaboration, combined with a unyielding pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great emphasis on being an environmentally conscious company and providing a safe atmosphere for their workers to work in. In addition, they have applied a lot of programs within the company to be able to help articulate these values within their business policy. AxleTech gladly shares this policy and welcomes interested parties to offer them with whatever questions or comments, because they are glad to promote and share this policy with a greater knowledge of their efforts. They are extremely devoted to preserving and improving the environment. AxleTech has an EHS program which not only protects the natural world but which even actively protects their neighbors and workers also.

AxleTech prides themselves as being an innovative drive-train solutions provider. They specialize in manufacturing and designing planetary axles meant for both military and commercial applications. These applications range from airport ground support to construction equipment. AxleTech specifically designs axles so as to meet particular application demands. They have more than 1000 various axle specs in their current offering. With over 100+ years of history and skill, AxleTech proudly supplies the most complete solution for whatever of your axle requirements. The company is well known in numerous commercial and military applications. They offer complete axle assemblies used for aftermarket replacement requirements, along with servicing axle requirements for OE production. Their high mobility ISAS have added details which could be seen in the "ISAS" product selection.
