

Electrical Parts for Forklifts

Forklift Electrical Parts - Lift trucks as well as various forklifts could have particular labels utilized in some hazardous locations. The label indicates that this particular model of lift truck meets the minimum standards of ANSI/UL 553 meant for electric lift trucks or ANSI/UL 558 meant for internal combustion engine lift trucks.

The application for labels meant for lift forklifts could be found in National Fire Protection Association NFPA 505 - Powered Industrial trucks including: Areas of Use, Maintenance and Operation, and Type Designations. Consult your local insurance provider and Fire Marshall for further information regarding the approved uses of industrial powered lift trucks in your application.

If the specific forklift meets the outlined standards, labels could be attached. A labeled lift truck would show the type of designation located on the nameplate and will have a properly corresponding label attached.
